

Day Care

Avante Care & Support provides day care through its residential care homes across Kent and South East London. Day care is offered to those who are living with dementia or may require support and companionship.

Do you care for a friend or family member in their own home?
Would you both enjoy a change of scenery now and again?

Avante Care & Support Day Care could be the answer for both of you, giving your loved one the chance to meet new people and take part in varied, fun activities whilst you enjoy some time to yourself.

Our day care service allows clients to make new friends and keep busy whilst their family carers have a break. All of our day care centres are run by dedicated and experienced care teams, giving you the peace of mind that your loved one is in safe hands whilst they're with us.

There are a variety of day care packages available. Some clients visit for a couple of hours a week whilst others have a full day or several days throughout the week.

What can you expect?

Keeping busy is the secret to staying independent and positive as we get older, so we support members to play an active part in the day care should they wish too, this can include helping out in the garden to planning outings, or baking for everyone to enjoy.

There are regular health and beauty visitors to the day care centres from hairdressers to chiropodists. Many of our day care centres have facilities like kitchens and laundry rooms that members can use if they wish. Some also have bathrooms with specialist equipment, so an experienced member of our team can give your loved one a bath if you're finding this difficult to do yourself at home. Meals and snacks are provided where required.
